About Garden District

Garden District is framed by Central Park and the future park and waterbody in Tengah South.

A key feature of the district is the Garden Farmway - a green recreational corridor with communal spaces that encourages an active and social lifestyle centred on community gardening, as well as promoting kampung spirit.

Also within this district are garden-themed playgrounds such as flowers and garden creatures that encourages imaginative play. Green markers at key entry points such as botanical arbours with climbers, provide shade and enhance the green ambiance amidst the urban landscape.

Explore the **Tengah Webpage** for the latest updates on Tengah town including when the new amenities, facilities and developments are completing. You can look forward to these improvements, and improved connectivity within your neighbourhood in the coming months.

Site plan for Garden Waterfront II @ Tengah

Modern Homes

Garden Waterfront II @ Tengah comprises 4-room and 5-room flats.

These flats have floor finishes in the living/dining rooms, bedrooms, kitchen, service yard, household shelter and bathrooms. Wall tiles are provided in the kitchen and bathrooms, as well as sanitary fittings, i.e. wash basin with tap mixer, bath/ shower mixer with shower set and water closet suite. There are doors for bedrooms and folding doors for bathrooms.

Eco-Friendly and Sustainable Living

Tengah is the first HDB town to be planned with town-wide smart technologies from the outset. Garden Waterfront II @ Tengah integrates smart technology in its design, so that residents can enjoy a quality living environment. The smart technology includes Smart-Enabled homes with provisions to support easy installation of smart systems in the flat; Smart Lighting in common areas to reduce energy usage; and Smart Pneumatic Waste Conveyance System for cleaner and fuss-free waste disposal.

To encourage a green and sustainable lifestyle, Garden Waterfront II @ Tengah has several eco-friendly features. These include separate chutes for recyclable waste; regenerative lifts and smart lighting in common areas to reduce energy consumption; bicycle stands to encourage cycling as an environmentally friendly form of transport; parking spaces to facilitate future provision of EV charging; and Active, Beautiful, Clean (ABC) Waters design features to clean rainwater and beautify the landscapes.

Residents have the option of subscribing to air conditioning provided by the CCS service provider. This system for public housing is the first of its kind in Singapore. The highly energy-efficient chillers serve to cool each household and do away with the need to install and maintain outdoor condensing units on the air-conditioner ledge, thereby, enabling residents to enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. For further enquiries, please contact the CCS service provider, SP Group, at tengahcooling@spgroup.com.sg or visit mytengah.sg (<https://mytengah.sg/>).
